

# MY SAFETY PLAN

Create your Safety Plan well before an emergency situation. Try and be as brief and specific as you can while filling out each of the boxes. This will make understanding easier in case of an emergency.

## IF YOU FEEL YOU ARE POSING A THREAT TO YOUR SAFETY:

1. Make your environment safe from anything you can use to harm yourself.
2. Contact a loved one, or a helpline immediately.
3. As much as possible, try not to be by yourself. Although the instinct may be to isolate yourself, it is not helpful.
4. If your mental state is not improving, please admit yourself in the nearest hospital with a psychiatric department immediately.

**\*Please note that this product is not a replacement for Counselling or Psychotherapy. If you are not currently seeing a Mental Health Professional, please contact one close to you as soon as possible.**
